

Covid story

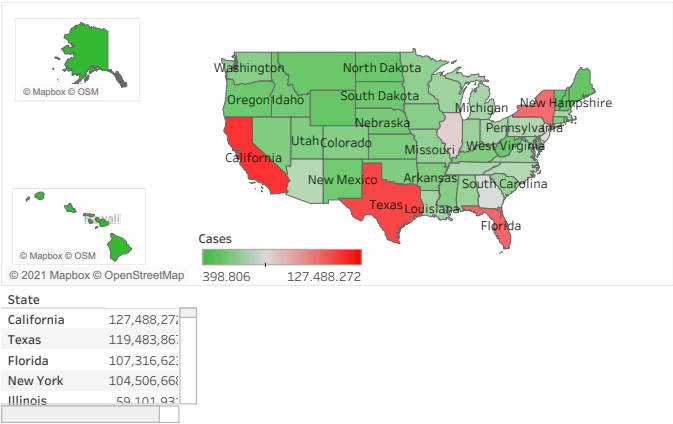

Global perspective of covid cases and deaths	Percentage of cases and deaths per region	Timeline of cases vs deaths	States covid cases
--	---	-----------------------------	--------------------

In 2020 United States got hit with its worst pandemic, causing states nationwide to shut down all activities and go into a state of quarantine. The purpose of my analysis is to pinpoint which region and states were hit the worst and when. I am also analyzing when we had the biggest increase in cases and de..
